

FOR IMMEDIATE RELEASE

API Healthcare Acquires Clearview Staffing Software

Extension of solution suite provides advanced management of healthcare workforce across hospitals, long term care facilities and staffing agencies

HARTFORD, Wis. — December 22, 2009 — API Healthcare, the leading provider of human capital management solutions to the healthcare industry, today announced it has significantly strengthened its human capital management solution suite with the acquisition of Clearview Staffing Software, Inc., a leading technology provider of workforce management solutions to help healthcare staffing agencies recruit, credential, schedule and pay temporary staff.

"The synergy created by adding Clearview's products to the API Healthcare suite supports our vision of providing an integrated, healthcare-focused solution that addresses the challenges around optimizing workforce utilization," said J.P. Fingado, president and chief executive officer of API Healthcare. "Hospitals and agencies recognize that there is a great deal of inefficiency and tension inherent in their current relationships. Our combined solutions and technology give us the unique ability to address these issues by maximizing operational efficiencies and streamlining workflows, thereby improving hospital-agency relationships."

API Healthcare is delivering on its vision to optimize human capital by building a complete suite of solutions focused on making it easier to place healthcare workers in the right place at the right time. Healthcare organizations are able to achieve positive outcomes by managing labor costs while still focusing on patient care. As Clearview's applications are integrated with API Healthcare's applications, both hospital users and staffing agencies will be able to realize additional cost savings and productivity gains.

"By becoming a part of API Healthcare, we are able to join a successful, larger company and have a greater impact on the management of the healthcare workforce," said David Gorman, president and co-founder of Clearview Staffing Software. "The integration of the API Healthcare and Clearview solutions will enable hospitals and health systems to maximize both internal and external staffing resources. The solutions will also make it easier for agencies and hospitals to work together, resulting in a win/win situation."

Clearview, based in Dallas, Texas, provides SaaS-based healthcare staffing solutions that allow healthcare staffing agencies to automate the process of recruiting, onboarding, licensing, credentialing, scheduling, managing and paying temporary medical professionals. API Healthcare headquarters will remain in Hartford, WI and the Dallas office will be a key business center for the corporation.
